

Operational mapping only â not legal advice.

EU AI Act (risk, transparency, oversight)

Pre-execution PERMIT / DENY / SILENCE; signed receipts before commit.

DORA Art. 16 (ICT operational resilience)

Execution and change paths with verifiable controls on production mutations.

SR 11-7 / model risk (US Fed)

Binding gate complements model validation; deterministic per-action outcomes.

FCA PS22/3 (UK operational resilience)

Evidence for automated actions touching customer monies or critical services.

IEC 62443 / OT and NIS2-style incident evidence

Fail-closed defaults; audit-friendly decision trails.
